The Trick-Emanuel Bergmann 2017-09-19

"Sweeping between Prague during World War II and modern day Los Angeles, this deeply moving debut follows a young Jewish man in 1934 who falls in love and joins the circus as the country descends into war. Decades later, a young boy seeks out the now cynical, elderly magician in the hopes that his spells might keep his family together. Prague, 1934: The fifteen-year-old rabbi's son Moshe Goldenhirsch marvels at the legendary circus magician known as the Half-Moon Man. Unexpectedly, he falls madly in love with the magician's delightful assistant, spurring him to run away from home to join the circus, which is slowly making its way to Germany as war looms on the horizon. Soon, he becomes a world-renowned magician known as the Great Zabbatini, even sought after by Adolf Hitler. But when Moshe is discovered to be a Jew, only his special talent can save him from perishing in a concentration camp. Los Angeles, 2007: Ten-year-old Max Cohn is convinced that magic can bring his estranged parents back together before they divorce. So one night he climbs out of his bedroom window in search of the Great Zabbatini, certain this powerful magician has the power to reunite his family. Perfect for fans of *All the Light We Cannot See* and *The Nightingale*, this radiant historical novel is both a deeply moving story of a small boy who believes in everything and an old man who believes in nothing--as well as a gripping and heartfelt tale about the beauty and fragility of life"--

The Worry Trick-David A. Carbonell 2016-02-02
Are you truly in danger or has your brain simply "tricked" you into thinking you are? In *The Worry Trick*, psychologist and anxiety expert David Carbonell shows how anxiety hijacks the brain and offers effective techniques to help you break the cycle of worry, once and for all. Anxiety is a powerful force. It makes us question ourselves and our decisions, causes us to worry about the future, and fills our days with dread and emotional turbulence. Based in acceptance and commitment therapy (ACT) and cognitive behavioral therapy (CBT), this book is designed to help you break the cycle of worry. Worry convinces us there's danger, and then tricks us into getting into fight, flight, or freeze mode—even when there is no danger. The techniques in this book, rather than encouraging you to avoid or try to resist anxiety, shows you how to see the trick that underlies your anxious thoughts, and how avoidance can backfire and make anxiety worse. If you're ready to start observing your anxious feelings with distance and clarity—rather than getting tricked once again—this book will show you how.

Trick-Natalia Jaster 2015-11-04 *Mature YA:

sexual content and language. Intended for readers 17 and older* There is a rule amongst his kind: A jester doesn't lie. In the kingdom of Whimtany, Poet is renowned. He's young and pretty, a lover of men and women. He performs for the court, kisses like a scoundrel, and mocks with a silver tongue. Yet allow him this: It's only the most cunning, most manipulative soul who can play the fool. For Poet guards a secret. One the Crown would shackle him for. One that he'll risk everything to protect. Alas, it will take more than clever words to deceive Princess Briar. Convinced that he's juggling lies as well as verse, this righteous nuisance of a girl is determined to expose him. But not all falsehoods are fiendish. Poet's secret is delicate, binding the jester to the princess in an unlikely alliance-and kindling a breathless attraction, as alluring as it is forbidden.

Trick of the Eye-Silke Vry 2017-08 Now

available in a new edition, this colorful, lively, and endlessly entertaining book for children looks at artistic illusion, showing that art history is rife with tricksters. If seeing is believing, then artists might be the biggest liars of all. Painters, sculptors and photographers often try to convince their audiences that the paint is wet; the fruit is real; the window is open; the figure's eyes are following you around the room. This fun and informative book takes young readers on a thematic tour of art as illusion. From the Parthenon through examples from nearly every major movement and culture, vibrant works of art are revealed to contain visual tricks, puns, hidden clues and just plain deceit. Seurat's pointillism, da Vinci's mysterious Mona Lisa, Magritte's playful paintings-within-paintings,

Duane Hanson's eerily realistic statues are all explored in detail to discuss the techniques, styles, use of perspective, and composition that implore us to look at them again and again. Filled with ideas for do-it-yourself optical projects, each chapter focuses on a theme such as color, hidden pictures, and surrealism. Designed with the curious eye in mind, this book will introduce young readers to beguiling works of art with fresh insight and a new way of appreciating some of the world's most important works of art.

Trick Mirror-Jia Tolentino 2020-07-14 NEW YORK TIMES BESTSELLER • “From The New Yorker’s beloved cultural critic comes a bold, unflinching collection of essays about self-deception, examining everything from scammer culture to reality television.”—Esquire Book Club Pick for Now Read This, from PBS NewsHour and The New York Times • “A whip-smart, challenging book.”—Zadie Smith • “Jia Tolentino could be the Joan Didion of our time.”—Vulture FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE’S JOHN LEONARD PRIZE FOR BEST FIRST BOOK • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK PUBLIC LIBRARY AND HARVARD CRIMSON AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Time • Chicago Tribune • The Washington Post • NPR • Variety • Esquire • Vox • Elle • Glamour • GQ • Good Housekeeping • The Paris Review • Paste • Town & Country • BookPage • Kirkus Reviews • BookRiot • Shelf Awareness Jia Tolentino is a peerless voice of her generation, tackling the conflicts, contradictions, and sea changes that define us and our time. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the

definitive millennial ethos; the literary heroine’s journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino’s sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet. FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY

Playing to Trick One-James Marsh Sternberg MD 2020-10-07 Bridge is a game of mistakes. The best players make fewer mistakes. It’s not a matter of being brilliant. The real expert players never make basic mistakes, they keep the ball in the court, in the fairway. Sure there is an occasional hand where they make a brilliant play but that’s not what distinguishes the true expert from the good player. One often hears an expert say “I’ve seen this hand before”. What does he mean? No, he hasn’t seen the hand record; he recognizes the hand type. After all, there are only a finite number of hand types in bridge. For example, second suit hands, cross-ruffs, ruffing in dummy, a simple finesse, an elimination, a dummy reversal and a couple of others. You can’t reinvent bridge every time a hand comes down. If you recognize the type, then you have some idea or plan of how to go about trying to make your contract. But one of the biggest mistakes non-expert players make is playing to trick one, then looking around and deciding what to do next. And in many cases, it’s already too late. The key to the hand was trick one. But sorry, no mulligans in bridge. So this book will present a series of hands, all as quizzes but of course you have a big clue from the title. Nevertheless, I hope you will find the hands and following discussions interesting enough to help you learn to do your thinking before not after you play that first card. Speed kills.

The Bullet Trick-Louise Welsh 2007-12-01 In this decadent mystery by one of the genre's "most exciting new writers" a London magician balances murder and misdirection (New York Times Book Review). William Wilson would love to believe he's Soho's master prestidigitator. As the opening act for strippers, he's mostly an old-school hack whose low-demand career has tanked. Then his agent books him into a dreary bordello to perform at a retirement party. Who's William to say no? For a man whose life has become a series of sad, bad mistakes, saying yes is a big one. His next is hooking up with a fatally sexy showgirl named Sylvie. Her connections to the underworld might have something to do with a grisly double murder, and a mysterious photograph entrusted to William. It's also made him a hunted man. As he and Sylvie flee to Germany, William is finding it harder to distinguish between real life-and-death threats and what is an ingenious, if nightmarish, sleight-of-hand. "As irresistible mystery" (Library Journal) by a CWA Award-winning "literary escape artist of the highest rank" (Chicago Tribune), *The Bullet Trick* scours the seediest backrooms, backstreets, and backstages—from Glasgow dives to Berlin cabarets—for a thriller that "satisfies like a well-executed magic trick, one that, for this reader . . . offered the thrill of surprise" (San Francisco Chronicle).

The Oldest Trick in the Book-Ben M. Debney 2020-07-03 This book investigates the normalisation of blame-shifting within ideological discourse as a broad feature of history, working from Churchill's truism that history is written by the victors. To that end, it explores historical episodes of political persecution carried out

under cover of moral panic, highlighting the process of 'Othering' common to each and theorising a historical model of panic-driven scapegoating from the results. Building this model from case studies in witch panic, communist panic and terrorist panic respectively, *The Oldest Trick in the Book* builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim. On this basis it argues that the periodic construction of bogeymen or 'folk demons' is a useful device for enabling the kind of victim-playing and victim-blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically, panic-driven scapegoating retains great ongoing value to the privileged and powerful, and thus conspicuously remains an ongoing feature of world politics.
